## Dead Sea Scrolls Electronic Library Non-Biblical Texts

**Editor:** Emanuel Tov. **Technical advisor:** Ariel Tov

Dead Sea Scrolls Electronic Library Non-Biblical Texts is now available on our new platform, [Scholarly Editions](#), in a completely new design, and with enhanced search options throughout the entire publication. Brill's Scholarly Editions is designed to provide an uninterrupted reading experience and to display parallel texts side by side.

The Dead Sea Scrolls represents perhaps the most significant historical manuscript discovery in recent history. Brill's *Dead Sea Scrolls Electronic Library Non-Biblical Texts* offers a unique opportunity to study state of the art photographs of these ancient scripts, and understand their meaning using the translations of text and interpretations for missing fragments.

The *Dead Sea Scrolls Electronic Library Non-Biblical Texts* provides users with a comprehensive tool for the study of the non-biblical texts from the Judean Desert (the "Dead Sea Scrolls"). It contains high resolution images of the Non-Biblical Dead Sea Scroll fragments and all the texts, in the original languages and in translation. It enables content searching using a sophisticated inventory, and examining finer details of the original texts through search options and zoom possibilities for the images. Never before has such comprehensive information been available in one place.

The complete collection consists of the *Dead Sea Scrolls Electronic Library Non-Biblical Texts* and the [Dead Sea Scrolls Electronic Library Biblical Texts](#). Used side by side, these databases offer the user access to **all the Dead Sea Scrolls** texts.

This online product is based on *The Dead Sea Scrolls Electronic Library CD-ROM*, published by Brill and Brigham Young University, 1999.
